

Safe & compassionate care,

every time

Welcome to Buckinghamshire Healthcare NHS Trust

At Buckinghamshire Healthcare NHS Trust we have lots to be proud of; we have some of the lowest infection rates in the country, our stroke service is one of the best in the region, we are leading the way in integrating community and acute healthcare services and we have the world acclaimed National Spinal Injuries Centre – the birthplace of the Paralympic movement.

But we haven't stopped there. We've got an ambitious vision for our future and are investing in our workforce to get us there.

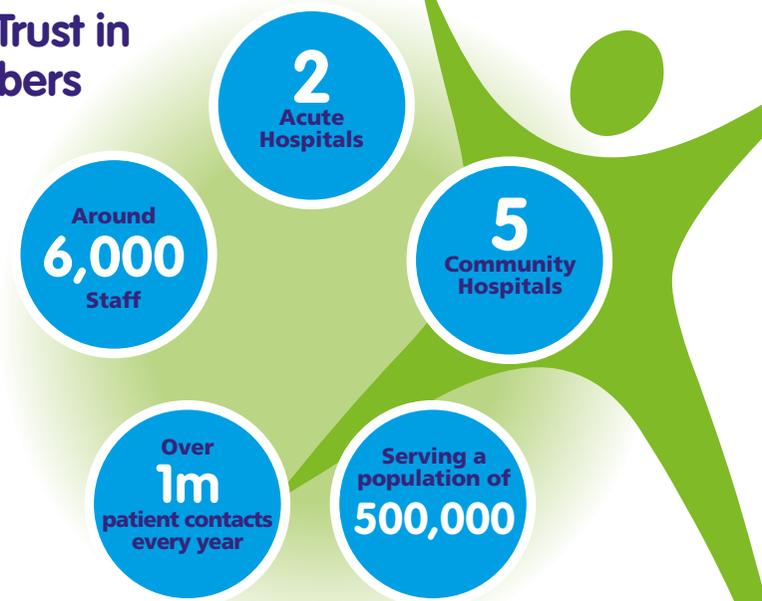

Since 2010 we have been responsible for providing both acute and community healthcare and are proud to be one of the first Trusts in the country to fully integrate our services. We provide care in people's homes or from one of our five community hospitals at Amersham, Thame, Marlow, Buckingham, Chalfonts and Gerrards Cross or our two acute

hospitals at Wycombe and Stoke Mandeville. We care for patients from across Buckinghamshire and the borders of Oxfordshire, Hertfordshire, Berkshire and Bedfordshire.

We have around 6,000 highly trained doctors, nurses, midwives, health visitors, therapists, healthcare scientists and other support staff all working to deliver the best healthcare to our patients; from newborn babies to elderly people needing help to live independently at home.

When you come to work for us you are part of a team delivering high quality, safe and compassionate care, giving patients the right treatment, at the right time, every time. From healthcare assistants to porters, medical secretaries to physiotherapists all our staff are committed to making a difference to our patients.

Our Trust in numbers

Working for us

We want to be the local employer of choice. We want to employ the best people to deliver the best patient care. We want our staff to be proud to work for us.

We are committed to giving you a rewarding and stimulating career with access to on-going training and development opportunities to support you in taking your career where you want. We have a reputation for teaching and training excellence and foster an environment where lifelong learning creates innovation and flexibility in the way we deliver care to our patients.

We want our staff to come on the journey with us. We are continually striving to talk to them, listen to them and involve them in our plans, using their diversity, experience and unique knowledge to tell us what needs to happen. We know our dedicated staff are our biggest asset and we want to protect and nurture them. Recognising the contributions and achievements of our

staff is important. As well as celebrating long service we have monthly staff awards and an annual staff awards ceremony as a way for us to say thank you.

Working at Buckinghamshire Healthcare NHS Trust will give you benefits of working in the NHS including a salary to match your abilities and responsibilities, a generous pension scheme and at least 27 days holiday each year.

As well as providing you with a professional and exciting working environment we are helping with other areas of your life too. We can offer subsidised accommodation, help with childcare through subsidised rates at our on-site nurseries, help with keeping you healthy and local and national money-saving discounts.
